

## NEW CLIENT RELEASE FORM

Computerized Elite 5.0 Biocommunication Scan is non-invasive and painless. It measures the energy fields within the body. The science of computerized Biocommunication Scan is based on quantum physics, not chemistry. It is not a substitute for full diagnostic medical investigation and treatment. It complements (rather than replaces) conventional diagnostic and therapeutic procedures. It is important that you recognize that my advice during consultation is designed to help you make decisions about your health.

My objective is to urge and encourage you to become aware of the broad spectrum of preventive health possibilities and empower you to be more proactive and take full responsibility for all decisions about your health.

I have fully read and understand the above information, my rights and responsibilities and hereby give my consent.
